

AMENDMENTS TO THE SPECIFICATION

Please amend the specification as follows:

[0019] As used herein, the phrase "~~catalyst-compound~~ component" includes any compound that, once appropriately activated, is capable of catalyzing the polymerization or oligomerization of olefins, the ~~eatalyst~~ compound including at least one Group 3 to Group 12 atom, and optionally at least one leaving group bound thereto.

Please amend the title immediately prior to paragraph [0090] as follows:

Additionally-Discovered Catalyst Compounds
